AYUB KHAN J

JUNIOR APP DEVELOPER

CONTACT

Phone: +91 7904463409   **Email:** kayub1601@gmail.com

ABOUT ME

I am looking for an opportunity in a large multi-site organization providing financial management, customer service and exceptional support for all aspects of development in an organization. Interested in moving to the next level in my career, where I can use my experience that I have gained over the last few months.

EDUCATION

- 7.2 CGPA in B.Sc Computer Science from Periyar University
- 62% in XII from Govt Boys Higher Secondary
- 80% in X from Govt Boys Higher Secondary School

EXPERIENCE

Coderzbot Technology
April 2023 – May 2024

Codegen Solutions
Junior App Developer
June 2024 – Present

PROJECTS

GPRS (Golden Professional Service):
Tools : Android Studio, Postman
Framework : Flutter
Language : Dart

Description: GPRS is a service booking application for home appliances, enabling users to schedule repairs and maintenance with verified professionals. It supports a wide range of home services and integrates advanced features such as **call masking**, implemented to ensure user privacy and secure communication between customers and service providers.

Pilling
Tools : Android Studio, Postman
Framework : Flutter
Language : Dart

Description: Pilling is a construction management app developed for a foreign construction company to streamline communication between site workers and senior officers. The app allows users to update task progress, request construction materials, and features **pre-configured dial numbers** for quick SOS alerts and direct contact with higher authorities

Flicky

Tools : Android Studio, Postman

Framework : Flutter

Language : Dart

Description: Flicky is a social media application inspired by Instagram, focused on short-form video content. Users can **watch and upload reels**, interact through **chat**, and engage with dynamic media features. The app also incorporates **FFmpeg** to enable advanced audio processing such as **trimming and merging audio tracks** for enhanced reel creation.

TECHNICAL ABILITY AND SKILLS

- Build cross-platform mobile apps for Android and IOS Implementation of Flutter in Android Studio IDE.
- Understanding of Dart language
- Knowledge of using proper widgets in flutter Implementation of code in UI using design Installed third party APIs
- Installed Bloc and GetX architecture for State management Writing clean code for development.
